Clinical Trials

on **Alzheimer's Disease**

Dear Colleague,

It is a great pleasure for us to invite you to attend the **1st conference Clinical Trials on Alzheimer's Disease (CTAD)**, which will take place in Montpellier on 17th -19th September, 2008.

This conference is jointly organized by the Montpellier, Toulouse European Alzheimer's Disease Consortium (EADC) Centres and the Lou Ruvo Brain Institute.

The aims of the meeting are to bring together the current leaders in clinical trials in Alzheimer's Disease to discuss new results, drugs in development, and future methodological issues (disease modifying, outcomes, biomarkers, health economics).

Furthermore, a Clinical Trials Training Workshop will be organized on September 17th before the Conference. This will be a high-level training course designed for investigators and clinical research assistants involved in clinical trials.

We look forward to seeing you in Montpellier,
